We couldn't get an escort for Monday, but we are set to start sampling at KCIA on Tuesday.

Rick. Could we also reserve an escort for Wednesday as a contingency? If all 13 CBs have enough sediment to sample, we may need an extra day.

Thanks,

Bruce

Thanks, everyone

I am making some phone calls and trying to get materials together. Let's plan for a Monday start with a two-person crew. I am looking at sampling 13 CBs. The airport is also starting their CB cleaning project on that day, but I put in a request for them to start at the north end of the airport and work south. The CBs we will be sampling will be closer to the central part of the airport.

I will be in touch with additional information, shortly.
